

# Office of Home Education

## Hillsborough Virtual K-12+ Part Time Curriculum Option

The parent/guardian who chooses to home educate their student assumes the responsibility for researching, planning and providing the curriculum, educational materials and evaluations necessary to determine student progress. **The School Board of Hillsborough County does NOT supply technology, texts, curriculum guides or educational standards for the home education student.**

There are many methods a parent may use to direct a home education program and we would like to inform you about **Hillsborough Virtual K-12+ Part Time** as an option for our Home Education families. **Hillsborough Virtual K-12 provides curriculum in a digital space using a web-based program with highly-qualified teachers from Hillsborough County Public Schools.**

Hillsborough Virtual K-12 school counselors are available for academic advising for families that would like to enroll in virtual courses with HVK12 as a part time student. Please reference the chart below for the correct counselor for your child.
