

DRAGON NEWS

SEPTEMBER 2020

6th Grade:

We had an amazing week getting to know our 6th graders. Students learned and practiced how to be respectful, be safe, and be responsible. We can't wait to start giving out those Dragon Dollars starting September 8th.

7th Grade:

We are excited to welcome the following teachers to our 7th grade team: Patrick Perez in Civics, Graysen Casco in Math, Emma Zions in Science, and Ginger Evans and Brianna Libby for 7th Grade Reading.

8 Grade:

Our students and teachers are so excited to be back in school, whether e-learning or brick and mortar. Many of our 8th graders will be taking on the challenge of high school credit classes like Algebra, Geometry, and IAPS. Our students are off to a great start and we look forward to a successful school year.

PE News:

Although PE looks very different this year, we are trying our best to still find ways to be active while maintaining our social distancing to remain as safe as possible. We are, as we have said to the students many times, all in this together and we will all get through it together. PE, and sports in general, rely on the concept of teamwork and we believe that our PE Department has the strongest teamwork in the county.

Electives

Electives are off to a great start! All of our elective teachers are reaching our students both online and in-person. We are so happy to see our students and can't wait to see what this year brings.

AVID:

The first College Shirt Day of 20-21 is in the books! Students celebrated college awareness Friday Sep. 4. Students and staff show school spirit the first Friday of each month by wearing college shirts. Look for announcements on Canvas and Parent Link. Students

YEARBOOK Dragon families-

We are still waiting for the arrival of the 2020 yearbook. Ms. Mikhail, our yearbook advisor at Davidsen, has been in constant contact with Life-touch and will notify the school as soon as she receives information for the expected arrival date. We know this is very frustrating, and we are aware that other schools in the area have already received their books, however, the delivery of books is not linked to specific areas. The book was submitted for publication in April but because of Covid 19, certain production facilities were shut down or working at half capacity. As a result, certain books have experienced extreme delays in being printed. We thank you all so much for your patience and support in this matter. We hope to have the books on campus sometime this month.
